Local officials tell us they want to act on climate change but that they need constituent support. The faith community is uniquely positioned to deliver the message of acting on climate change as a moral imperative. We invite you to join us in growing support for acting on the climate crisis with urgency and prioritizing equitable solutions to minimize human suffering through strong climate policies.

Meetings
Participate in monthly webinars and one-in-person planning meeting, as well as meet at least twice a year with elected officials.

Involvement
Participate in programs and events, subscribe to district newsletters, and track any issues of concern to share updates with the full team.

Action
Attend public hearings, submit letters to editor, submit public comments, participate in letter campaigns, etc.
