WHO ARE WE?

FACS is a non-partisan organization that creates interfaith partnerships in Virginia to develop local solutions to climate change and environmental justice. Our network of more than 190 faith communities includes the largest mosque in Virginia, with 25,000 members, the largest synagogue with 6,000 members, and five large Catholic parishes. Through the powerful interfaith grassroots movement built by FACS, the faith community has become a vital force in local climate planning and policy-making.

BE PART OF THE SOLUTION

FACS provides vulnerable communities with a voice through the work of our 190+ faith-based organizations. Your partnership reflects that you and your employees care about our collective future.

FACS works daily with local governments to advocate for strategies that will make our communities more climate resilient, thus attracting greater economic development and jobs.

Climate mitigation strategies will drive economic development and job creation for the next fifty years - join and advise FACS on the best approaches.
